Penetration Testing

Abdul Wasay

Junior @ FAST NUCES | xInfoSec Intern @ EFU General Ltd.
Karāchi, Sindh, Pakistan

Summary

A dedicated computer science student with a strong fascination for information security. I'm committed to honing my skills in cybersecurity and leveraging technology to safeguard digital landscapes. My coursework and hands-on projects have equipped me with a solid foundation in coding and networking, setting the stage for me to explore exciting opportunities in the world of cybersecurity. I'm eager to connect with like-minded professionals and experts in the field to learn, collaborate, and contribute to the ever-evolving realm of information security.

Experience

EFU General Insurance Limited
Information Security Intern
July 2023 - August 2023 (2 months)
Karāchi, Sindh, Pakistan

****Six weeks Internship****

Assisted in installing and configuring the Wazuh security monitoring platform and Active Directory components.

Collaborated with the security team to develop and implement Wazuh rules specific to Active Directory environments.

Customized and implemented Wazuh rules to detect potential security threats within Active Directory.

Planned and executed penetration testing simulations targeting Active Directory, validating Wazuh rule effectiveness.

Contributed to the design and implementation of incident response plans for Active Directory attacks.

Maintained detailed documentation of Wazuh rule configurations, penetration testing methodologies, and incident response plans.

Created clear and concise reports summarizing findings from penetration testing simulations.

Stay updated with cybersecurity trends, vulnerabilities, and best practices related to Active Directory environments.

Elphinstone
Software Engineer Intern
August 2022 - December 2022 (5 months)

Education

National University of Computer and Emerging Sciences
Bachelor of Science - BS, Computer Science · (August 2021 - July 2025)
